

# FOX NEWS POLL

Anderson Robbins Research (D) / Shaw & Company Research (R)  
N= 913 registered voters (708 landline, 205 cell phone)

Interviews Conducted:  
March 14-16, 2011

## Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll is based on live telephone interviews with a national sample of 913 registered voters, and was conducted March 14-16, 2011 in the evenings.

Landline and cell phone telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means that phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of error of  $\pm 3\%$ . Results among subgroups have larger sampling errors, including: Democrats (n = 356)  $\pm 5\%$ ; Republicans (n = 334)  $\pm 5\%$ ; Independents (n = 202)  $\pm 7\%$ .

LV = likely voters

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.

1. Do you approve or disapprove of the job Barack Obama is doing as president?
