Congress of the United States
House of Representatives
Washington, DC 20515

December 22, 2010

President Barack Obama
1600 Pennsylvania Ave. NW
Washington, D.C. 20500

Dear Mr. President:

We write to you today regarding the emergency request from the Bureau of Alcohol, Tobacco, Firearms and Explosives (BATFE) that was published in the Federal Register on Friday December 17th, 2010. As you know, this request asks the Office of Management and Budget (OMB) to approve an information collection that would require federally licensed firearm dealers to report the sales of two or more semiautomatic rifles to the same customer within a five-day period

Despite the institution of a 60-day public comment period on this change, the BATFE intends to begin collecting this information as soon as January 5, 2011. We are strongly opposed to this request by the BATFE, and to any further efforts to regulate the sale of firearms through emergency notices and paperwork changes that have not been properly vetted by Congress or by the affected public.

Implementing the BATFE's proposal would subject firearms dealers and their customers to new, onerous requirements that would inevitably track and catalogue the purchases of law-abiding gun owners. And while Congress has authorized multiple sales reporting for handguns, we have never extended this authority to other types of firearms. Expanding this power by executive decree would be an end run around Congress.

Under current law, the BATFE already has extensive powers to inspect the sales records of firearms dealers and investigate suspicious transactions. We encourage your Administration to reconsider this ill-conceived change to the reporting requirements, and instead utilize the BATFE's existing authority to ensure that firearms dealers are in compliance with the law.

Sincerely,
