Congressman Paul E. Kanjorski's statement to Fox News on their inquiries about Cornerstone Technologies:

“These six year old allegations have already been dismissed as false. I remain committed to the job of standing up for the middle class people of Northeastern Pennsylvania. I am proud of our efforts to bring high-tech, high-wage jobs to the area, as well as our efforts to stand up to those who want to privatize Social Security and those who oppose increasing the minimum wage.

“The idea that I have done anything in office to benefit myself is ludicrous on its face. My wife Nancy and I have lived in the same modest home for more than 25 years and anyone who visits us knows that we live by the same middle class values that we always have.

“This is a political attack by the Republican machine and nothing more.”
